GROWTH

A Journal Devoted to Problems of Normal and Abnormal Growth

VOLUME XLIV
Pages 1-366

1980

Author Index, Vol. XLIV, 1980

	Page
Anderson, D. B.	220
Atwater, A. E.	253
Aussman, L. M.	271
Bailey, J. W.	220
Beauchene, R. E.	192
Bisoyi, S.	29
Blevins, R. D.	133
Brisbin, I. L., Jr.	97
Brown, T. D.	301
Campion, D. R.	235
Cenarruzabeitia, M. N.	336
Chan, F.	12
Chesser, R. K.	46
Curtis, S. E.	220
Cutler, R. G.	230
DeGennaro, L. D.	343
Disney, G. W.	192
Etherton, T. D.	182
Evans, M. I.	36
Ferguson, A. B., Jr.	301
Fowler, S. P.	235
Fu, F. H.	301
Gallina, D. L.	271
Gatchel, B. B.	318
Gennaro, L. D., De	343
Griego, R. J.	112
Hamilton, J. B.	36
Hegsted, D. M.	271
Heltne, P. G.	73
Herbein, J. H.	1
Hogan, M. J.	147
Ingram, D. K.	268
Jacobsen, N. K.	58
Johns, P. E.	46
Katz, M. J.	89
Larralde, J.	336
Lasheras, B.	336
Lederman, S. A.	77
Lee, M.	327
Lee, P. A.	54, 147
Leichter, J.	327
Mahadevaiah, S.	287
Marks, H. L.	205, 235
Martin, R. J.	1, 19, 318
Martinez, A. O.	112
Marzo, F.	336
Mason, R. L.	192
McCarthy, J.	13
Milliken, G.	160
Mittwoch, U.	287
Moment, G. B.	155, 230, 363, 364, 365
Morris, A. M.	253
Morzlock, F. V.	123
Olsen, R. F.	19
Packard, D. S., Jr.	343
Patton, W. H.	19
Reagan, J. O.	235
Rosso, P.	77
Russo, A. R.	271
Santidrian, S.	336
Schalles, R. R.	160
Sherritt, G. W.	1
Smith, D. P.	133
Smith, M. H.	46
Sokoloff, A. H.	74, 75, 152, 153, 268, 269
Stach, R. W.	343
Swatland, H. J.	139, 355
Tolmasoff, J. M.	230
Travis, J.	167
Verma, G. B.	29
Verstegen, M. W. A.	220
Wagner, B. J.	343
Wakefield, T., Jr.	192
Wangsness, P. J.	1, 19, 318
Warren, J. H.	160
Way, M. E.	301
West, W. T.	36
White, G. C.	97
Williams, J. M.	253
Wilmore, J. H.	253

Subject Index, Vol. XLIV, 1980

	Page
Adaptation, light-dark	13
Age, rat	19
Aging, arthritis	155
food allergies	155
Adipose tissue, cellularity	182
growth, rat	220
Adolescence, delayed	147
Allergies, food, aging	155
arthritis	155
Allometric growth	46
gonad	287
muscle	357
Allometry, cellular model	89
Anas platyrhynchos, muscle growth	139
Androgen, target organs, mouse	36
Androgen response, mouse strain differences	36
Anthropometric measurements	253
Anthropometry, young children	253
Antigen, H-Y	287
Arthritis, aging	155
food allergies	155
Asymmetry, lateral	287
Axial gradients, respiration	230

	Page
Beans, navy, on chicken growth	336
raw, antinutritive	336
soya, chicken growth	336
Biological models, allometry	89
Biomechanics, skeletal	301
Blood cell volume, growth	58
Blood volume, deer	58
Body composition, maternal	77
monkey	271
Bone, density	192
mineral content	192
Bone physiology, stress	301
Brain evolution, allometry	89
Cattle, beef, growth	160
genetics	160
Polled Hereford	160
Cell division, effects of tetrahydrocannabinol	133
Cell division rate, allometry	89
Check, *in vitro* development	343
sex development, H-Y antigen	287
Chick embryo, shell-less culture	343
Chicken growth, raw legumes	336
Child, height growth	54
hip growth	301
seasonal growth	54
Children, physical size	253
preschool	253
skin fold	253
Climate, child growth	54
Coturnix coturnix, skeletal muscle	235
Dark adaptation	13
Deer, kidney growth	46
Deer, white tailed, allometric growth	46
cardiac growth	58
Denervation, forelimb degeneration	123
DNA, effects of tetrahydrocannabinol	133
Duck, mallard	139
muscle fiber growth	355
muscle growth	139
White Muscovy	355
White Pekin	355
Earthworm, axial gradients	230
Eisenia foetida	230
longevity	230
superoxide dismutase	230
thermal acclimation	230
Eisenia foetida, axial gradients	230
longevity	230
thermal acclimation	230
Ethanol, rat growth	327
Evolution, allometry	89
Evolution experiments, allometry	89
Excretion, creatine	192
Hydroxyproline	192
Exotherm, thermal acclimation	230
Fast vs slow growth, pig	318
Fat depots, growth	220
rat	220
Femur, head, stress	301
Fetal growth, food restriction	77
Fetus, human, sex development	287
Fibroblast proliferation	19
Fly oocyte	29
Food restriction, chicken	205
fetal growth effects	77
maternal body composition	77
placental growth effects	77
water consumption	205
water/feed ratios	205
Frog, genetic variation	167
larval specific growth rate	167

	Page
Genetic correlations, weights and ages	160
Genetic selection, growth rate	205
Genetic variation, larval specific growth rate	167
Germinal centers, allometry	89
Glucogenesis	1
Glycine soja L.	336
Gonad, development, avian	287
mammalian	287
Gonadotropin feedback	147
Growth, allometric	287, 357
comparative, race-income groups	193
height/weight	193
preadolescent black girls	193
preadolescent white girls	193
retarded	147
subscapular skin fold	193
Growth coefficient, rat adipose	220
Growth fraction	112
Growth hormone, insulin induced	318
Growth model, allometric	89
Richards curve	89
stochastic	97
Growth rate, domestic chicken	205
murine tumors	112
specific, variation	167
Heart size, deer	58
HeLa cell growth, tetrahydracannabinol	133
Hermaphroditism, human	287
Hip, juvenile, stress	301
^{3}H-thymidine, tumor growth dynamics	112
Human, hermaphrodite	287
hip stress	301
Hydrolases, in regeneration	123
Hyla gratiosa, larval growth variation	167
Insect, oocyte	29
Insulin	1
growth hormone induction	318
Iris, dorsal-ventral	13
Kidney vs body weight	46
Larval growth, frog, genetic variation	167
Legumes, raw antinutritive	336
Lens, regeneration	13
Light adaptation	13
Limb, regeneration	123
Lipogenesis	1
Liver DNA	1
Longevity, earthworm	230
Monkey, squirrel	271
Mouse, genetic variation, androgen response	36
Multicell spheroid, tumor growth dynamics	112
Murine tumors	112
Muscle, cellularity	235
chicken	336
composition, legume diet	336
fiber type	235
Japanese quail	235
M. supracoracoidens growth	139
myosine ATPase	235
pennate, growth	139
Phosphorylase	235
skeletal, growth	235
succinic dehydrogenase	235
Muscle fiber, volume	355
Muscle fiber, duck	355
Muscle growth, duck	139
Myosine ATPase, quail	235
Neonate, pig	1
Newt, limb regeneration	123
Notophthalmus viridescens, forelimb regeneration	123
Nutritional response, oocyte	29
